Pergolas are a great way to filter in just the right amount of sunlight... and they, look SPECTACULAR !!!

OUTDOOR DECORATING FOR COOLER WEATHER !!

As colder weather quickly approaches, you might think that outdoor decorating is done until next spring. Au contraire...

In fact, there are a number of ways to decorate your landscape to welcome in the winter months. Here's a few ideas to get you started:

Fire Pits & Fireplaces: Before the snow and sleet set in, you can enjoy a few more outdoor gatherings by placing an attractive fire pit or fireplace next to your outdoor seating. These fire pits and fireplaces create a warm, inviting atmosphere for guests and also make a great focal point for your landscape.

Outdoor Rooms: The distinction between indoor and outdoor has never been more blurred. Outdoor rooms are

the perfect way to extend entertaining into your yard and create an attractive and eye-catching landscape centerpiece.

Outdoor rooms can range from a simple seating area with paving stones for the "floor" to a well-structured room that offers shelter from the elements. For a roof, place your seating area under a grand pergola and build a "wall" complete with barbecue pit, sink and cook-top for added definition.
